Character

Yuyi Wu

"I've always hoped to be someone just like her. Someone as reliable and gentle as her..."

The introverted protagonist of the story, an excellent university student. She really admired the tutor she had in middle school. After four years of hard work, no matter in coursework, cooking, or temperament, she did it impeccably.

Her only obvious weakness shows when she plays sports...

Dreaming of meeting someone just like in her otome comics, she's gradually realized just how different they are from reality.

Yile Lin

"When you're in a bad mood, you have to laugh more! Come on, it'll bring you good luck! Smile! Hehe~"

Yuyi's classmates with such an optimistic personality it can clear a cloudy sky.
As the public relations person of the faculty, she's organized many activities and is the rising star of the volleyball team.
Her direct and straightforward character can be somewhat offensive at times though.
But her upbeat and innocent nature is hard to stay angry at.

Sis Tutor

"I'm happy you've come to ask me. Hopefully we can chat a bit afterwards too."

Yuyi's middle school tutor, giving off a very gentle impression.
The two were very close, but because of some reasons...
After Yuyi graduated, they never met again. They only talk now through social media...

Warm and touching. If you're looking for a Yuri story of growing up and self-discovery, this will be a must-have game for you.. A very lovely little story, one that brings as many aches as it does smiles. I'm pleased to see that it ends in a satisfactory way for the most part.. Very cute and heartwarming game. The story is centered around understanding and accepting yourself rather than romance between 2 girls, but it was an enjoyable read nevertheless. Would recommend it to anyone who is into yuri. I hope developers will consider to continue the story, because both girls are adorable and I very much like them. Art and sound design are great too. There are some typos in the script, but nothing too major. All in all it was a great experience, we need more VNs like that.. What it all comes down to is character, a word with multiple meanings. Characters that one can see, feel, relate to, and cherish. Character as an attribute, that succeeds in instilling a specific mood or personality. What will ultimately be the factor in choosing to partake in this visual novel will depend on how much "character" means to you. Short, but sweet. Insufficient, but promising. Whatever drawbacks arise, the sweet sensation of bubbly optimism and the togetherness of human empathy lessens the pain of all that goes wrong. Lingua Fleur: Lily could be such an experience.

- + Great character-building\character chemistry
- + Soundtrack is phenomenal in its mood-setting
- + Art is impressive for the scale of the game
- Narrative themes feel too dispersed, not fully developed
- Clichés are plentiful within story, character types
- Few too many typos with English translation

Read the full review at <https://www.keengamer.com/article/21102-lingua-fleur-lily-review..> Not much really needs to be said here that hasn't already been said in other reviews, just that this is a relatively short but utterly sweet (and slightly bitter) wholesome yuri visual novel- kinetic actually, there are no choices to be made. Yile had me grinning quite a few times with how friggen adorable she was. What a cutie. I do hope this story gets expanded on in the future.

A little side note, something that can be appreciated is that this is voiced in Chinese, which was kind of refreshing to be honest. At first I felt like the voice actresses of the two girls were a little stilted sounding, but as it continued on I felt they got better, more expressive. This could be because it took me a little while to get used to hearing Chinese.. or just that the two of them (the characters) were becoming more open\closer with each other.

Lingua Fleur : lily was an huge surprise to me. Specially taking in mind it's an 2h long VN, it has a lot of content. Not only how the text looks like an Chinese poetry book. Or the music that despite be simple, it's really well placed, specially at the best moments this VN has to show. With that be said, there are VN and comic talking about the whole "open up" when it comes to sexuality. But I really like how Lingua Fleur : lily did. By telling an story without losing the main focus of it, while match pretty well with an text that makes everything they are been thought quite charming and frank. I think it really remembers me when I first read Seabed, it's not about the "what" but "how" you do it.. Yuile And Yuyi Two VERY Great Friends Who Now do lots of stuff Together ^^ Yuyi Didnt really Like sports all that Much Esp Volleyball she was no good at it And she thought she sucked in her mind. Though Yuile helped and teached her the ways but one Little Accident Caused Yuyi Nose to bleed cause Yuile spiked the ball and she was really Sad that it happened. Down the road Her Sis Yuyi Was getting Married And was Gonna move away from town So she can live happy life With her Husband Thankfully Yuyi Arrived in time to see her off. Yuyi Helped Yuile About Makeup and Kanji so that she can get Better at it. But in all Very Good VN ^^ I loved it And Def would Recc this to people If you Like Heart to Heart Stories.
